

The latest technology Flying Insect Control System from Pest Control (India) Pvt. Ltd., PCI, the first and largest pest management company in the country.

- **Unique ‘Translucent Technology’ : maximised attraction for flying insects**
- **Conforms to latest International Safety Standards, GMP, CGMP, HACCP & ISO specs**
- **Attracts and traps flying insects permanently on replaceable control (glue) boards**
- **Uses UVA tubes: highly attractive to insects but safe for humans**
- **No high voltage, no “zap”, no risk of accidental electric shock as there is no grid**
- **No fragmentation of insects thus no contamination hazards in food processing, pharma units, hospitals, etc**
- **Lightweight yet sturdy body made of ABS plastic – a permanent asset; no rusting associated with conventional metal models**
- **Easy to maintain and service; click-on covers and easily replaceable control (glue) boards**
- **Continuous operation: at least one tube will always remain on\***
- **Sleeved tubes and screen (optional) to shield trapped insects from view**
- **Designed and patented by Brandenburg UK Ltd.**

Just like its name-sake in nature, which traps flying insects on its web, **SPIDER™** attracts and permanently traps insects on its control (glue) boards.

\*except in the event of a blown fuse, etc
