

“When your need is **Gas Sterilisation**,  
PCI is the single source answer”

**Pest Control (India) Pvt. Ltd., PCI**, were the first in India to introduce an integrated approach to ethylene oxide based sterilisation. This has greatly influenced the quality of services provided by the medical, pharmaceutical, cosmetics, electronics, food ingredients, herbal extracts, spices, seeds and packaging industries.

### Our complete range of Products & Services

- **Sterilisers and Ancillary Equipment**
- **Ethylene Oxide Gas Mixtures**
- **Service, Technical Support, Calibration and Validation**
- **Accessories**

For medical, pharmaceutical, cosmetics, electronics industries, PCI offers a comprehensive range of EO gas sterilisers in several different sizes.

- Small Low Cost Manually Operated Steriliser
- Small capacity Fully Automatic Steriliser
- Large capacity Manual and Fully Automatic Sterilisation Plants

Ethylene Oxide is available in small disposable cartridges to meet the sterilization needs of units/where small & large capacity table top models are in operation.
