

TRUBBLE-GUM™

THE BETTER RAT TRAP

The Open and Shut solution from PCI to help you get rid of rats and mice!

Trubble Gum™ is a unique rat trap that looks like a book and opens like one. Once opened, you can find inside two special glue surfaces separated by spacers to stop them from sticking to each other. These surfaces are very, very sticky. Rats and mice are creatures of habit – they tend to follow a fixed route along walls and corners. And they don't walk – they scamper.

All you have to do is open **Trubble Gum™** and place it along the rat's route at night. The scurrying animal walks right onto the trap and before it realises, it's stuck for life. The trap can then be easily disposed off. In case the rat or mouse was not in the area, and hence not caught, you can fold **Trubble Gum™** back and try again at another location.

Trubble Gum™ is

- **Safe**
- **Non-Toxic**
- **Effective**
- **Convenient**
- **Easy to use**
- **Eco-friendly**
- **Long-Lasting**

Another quality product from **Pest Control (India) Pvt. Ltd., PCI, Trubble Gum™** has been tested under diverse climatic conditions. The special glue lasts for many years and it can function at temperatures ranging from 0° to 45°C. However, reasonable precautions such as proper storage (away from excess moisture and extreme heat) will ensure that **Trubble Gum™** performs as designed. Although **Trubble Gum™** is safe and non-toxic, it should be kept away from children and pets. Should the glue stick to hands or other objects, apply vegetable oil and wash with mild detergent and water.

Packing : Available in Regular and Economy size in shipper carton of 50.
